

MARYSVILLE

INFORMATION SERVICES DIRECTOR

\$157,846 – \$202,035 ANNUALLY

\$13,154 - \$16,836 MONTHLY

Review of applications April 11, 2022 (open until filled)

The Community

Marysville is a rapidly growing, prosperous and diversified community located along the Interstate 5 corridor in Snohomish County, just 45 minutes north of Seattle. It is Snohomish County's second-largest city with a population of about 70,000, and was the fastest growing city in the state of Washington in 2015. Additionally, the city's business sector is expanding rapidly, helping to ensure that the City's future revenues are robust and healthy.

Incorporated in 1891, the city's roots can be traced back to the beginning as a small mill town that paved the way for many pioneer families moving to the area. Marysville has developed into an ideally located economic center, allowing residents and business opportunities to prosper while preserving the unhurried qualities of life in this growing region.

The City

Led by a government that continues to demonstrate its commitment to customer service and to building a healthy infrastructure through major public improvements, Marysville is poised for a strong and sound future.

Marysville is a code city organized under the Mayor/Council form of government, and is a full-service city with 300+ FTEs. Marysville has a long and successful history of using a city administrator to manage the day-to-day operations of the City. The working relationship between the Mayor, City Council, and the City's management team is excellent.

The Information Services Department

The Position

The Information Services (IS) Director is responsible for planning, managing, and overseeing the information services function for the City. Responsibilities include managing, administering and overseeing the overall information systems operations, including all data, geographical information, voice, and radio systems. In addition, the IS Director is responsible for analyzing, reviewing, and making recommendations to the City on information technology matters; establishing program functions within the department; and supervising and evaluating the performance of assigned personnel.

This position requires a high degree of independent judgment and problem solving, sets broad objectives and is accountable for overall results in their respective area of responsibility.

Required Education and Experience

This position requires a combination of the experience, education, and training listed below to perform the work of this position:

- Bachelor of Science degree in computer science, information technology or a related field.
- Master's degree preferred.
- Seven years of progressively responsible experience in the administering or the supervising of information systems and services.
- Three years of experience directing or managing computer or information technology functions and operations.

The Ideal Candidate

The City is looking for a candidate who has demonstrated knowledge of management, operations, technology innovations and trends in a public sector environment.

The candidate must be familiar with the principles and practices of information systems and resource management, to include network architecture, geospatial technology, internet, and e-commerce, voice, and radio technologies.

The ideal candidate will have the ability to research, analyze, and evaluate new technologies and service delivery methods, procedures, and techniques, do cost-benefit analyses, and determine the feasibility of integration with the city's existing and planned systems. Additionally they will possess strong communication and interpersonal skills allowing them to collaborate and problem solve with multiple departments and develop teams to define strategic plans based on customer needs, market opportunities, and business processes

The Information Services Director will lead department staff by providing clear expectations, mentorship, evaluation of work, and performance feedback. They will bring energy and enthusiasm to the position as well as a "can do" attitude and an appropriate sense of humor.

Applying for the Position

Review of applications will occur on April 11, 2022 (position is open until filled). To be considered for this position, candidates must submit the following:

- City application form and supplemental questions available online by following the Job Opportunities link at www.marysvillewa.gov.
- Resume (submitted online with application).

Also available online is a copy of the job description for this position as well as additional information about the City's comprehensive benefit package. The top qualifying candidates will be invited to participate in an interview process.
